2. NEBOSH HSE Certificate in Process Safety Management

People from all around the world who work in process industries such as oil and gas, chemicals, plastics and pharmaceuticals.

Ideal for managers, safety representatives and health and safety advisors working within the process industries, both inside and outside the UK.

It is not designed for chemical and process safety engineers experienced in the specification, design and maintenance of process plant.

It is recommended that learners should already have an underpinning knowledge of health and safety issues, and many will have gained another NEBOSH qualification.

The NEBOSH HSE Certificate in Process Safety Management is designed to cover a range of issues affecting process industries.

What you will learn

What you will learn

Key topics covered by this qualification include:

Establishment of process management systems

Asset management and maintenance strategies

Safe start-up and shutdown of process plant

Performance standards for safety critical systems and equipment

Hazards and controls for:

Chemical reactions

Bulk storage of dangerous substances

Fire and explosion

Purpose and features of emergency plans

This unit is divided into the following four key elements:

Process safety leadership

Management of process risk

Process safety hazard control

Fire and explosion protection

Entry requirements

There are no entry requirements for this qualification, but' it is recommended that learners should already have an underpinning knowledge of health and safety issues, and many will have gained another NEBOSH qualification.

It is also important that learners have a suitable standard of English language in order to understand and articulate the concepts contained in the syllabus.

Examination registration

Learners must be registered before they can take an examination. All examination registrations must be completed by an accredited learning partner.

3. NEBOSH HSE Introduction in Incident Investigation

NEBOSH and Great Britain's Health and Safety Regulator, the Health and Safety Executive (HSE), have jointly developed a new one day qualification that shows how non-complex incidents can be investigated effectively.

By learning lessons and making improvements, organisations can avoid similar incidents occurring in the future.

Who is it for?

This qualification is for anyone who wants to carry out incident investigations effectively. Employers, supervisors, SHE champions, union and safety representatives will benefit. Attending the course will enable you to:

- Independently investigate simple incidents
- Gather evidence including conducting witness interviews
- Produce an action plan to prevent a recurrence of an incident
- Contribute to team investigations for large scale incidents
- Positively impact the safety culture in your organisation

What you will learn

The one day NEBOSH HSE Introduction to Incident Investigation covers the following topics:

- Moral, legal and financial arguments for investigations
- Human and organisational factors that can contribute to an incident
- The process for investigating incidents
- Positive interview strategies and the barriers to successful interviews
- Attending the course will enable you to:

- Independently investigate simple incidents
- Gather evidence including conducting witness interviews
- Produce an action plan to prevent a recurrence of an incident
- Contribute to team investigations for large scale incidents
- Positively impact the safety culture in your organisation

Entry requirements

There are no entry requirements for this qualification, but' it is recommended that learners should already have an underpinning knowledge of health and safety issues, and many will have gained another NEBOSH qualification.

It is also important that learners have a suitable standard of English language in order to understand and articulate the concepts contained in the syllabus.

4. NEBOSH HSE Certificate in Health and Safety Leadership Excellence

This qualification is for senior business leaders or anyone who aspires to this role in the future.

It will help you become a better health and safety advocate and influencer by highlighting the key areas to focus on to make a difference.

It is relevant for all business leaders working in any sector, anywhere in the world.

What you will learn

The NEBOSH HSE Certificate in Health and Safety Leadership Excellence has been designed to help you become a better influencer of health and safety in your business. The course content covers the following topics:

- What health and safety leadership means,
- The moral, legal and financial reasons for good health and safety leadership,
- The links between health and safety leadership and culture,
- What the different leadership styles are,
- How human failures can impact performance and culture,
- The HSE's model of effective health and safety leadership,
- How leaders can build effective relationships with the workforce.

You should plan your study around a minimum of 7 taught hours and approximately 3 hours of private study.

Entry requirements

There are no specific entry requirements but it is important that learners have a suitable standard of English language in order to understand and articulate the concepts contained in the syllabus.

NEBOSH recommends that learners undertaking this qualification should reach a minimum standard of English equivalent to an International English Language Testing System (IELTS) score of 6.0 or higher in IELTS tests.

	<p>Adresse : Cité 11 Décembre 1960 N° 120 2ème Etage Baba Hassen- ALGER N RC : 16-01 - 20A1551304 NIF : 19517310150012900000 Telephone : 0782 83 79 88 Email: kitalgeria@kit-egy.com Site web : www.kit-egy.com</p>	<p>BATEN RABAH Consultation, Training, Contracting & Evaluation Training Pogramme</p>

5. NEBOSH Environmental Management Certificate

The NEBOSH Environmental Management Certificate is a globally relevant qualification. You will be able to help your organisation manage its positive and negative environmental aspects and support the implementation and continuous improvement of effective environmental management systems.

This is a replacement qualification for the NEBOSH Certificate in Environmental Management. If you are already studying the syllabus for the previous qualification,

Who is it for?

The NEBOSH Environmental Management Certificate is an ideal choice for anyone who has or would like to have environmental management responsibilities at work.

The relevant environmental qualification will help you to:

- justify environmental management in the workplace
- recognise which workplace activities may be subject to environmental legislation or enforcement
- assess environmental aspects and impacts, and evaluate existing controls
- support environmental emergency planning
- understand the importance of reducing environmental harm
- outline the issues associated with waste and its management
- explain the pros and cons of various energy sources and how to use them more efficiently.

Course details

This qualification helps you understand how to manage environmental issues and this knowledge can be applied in workplaces anywhere in the world.

On completion of the qualification, you will be able to:

- understand a range of environmental issues so that you can improve environmental performance and reduce harm
- work within an environmental management system and contribute to continual improvement
- recognise environmental aspects and associated impacts, and evaluate the effectiveness of existing controls
- support decision-making with ethical, legal and financial arguments
- understand the links between your organisation's activities and wider environmental issues.

7. NEBOSH HSE Certificate in Managing Stress at Work

NEBOSH has collaborated with Great Britain's Health and Safety Regulator, the Health and Safety Executive (HSE), to develop the NEBOSH HSE Certificate in Managing Stress at Work.

This qualification is designed to help delegates identify and reduce workplace stressors in order to create a positive, healthier workplace.

Who is it for?

This qualification is suitable for anyone responsible for managing people or for managing workplace stress. This may include:

Health and Safety professionals
Human Resource professionals
Line managers and supervisors
Occupational health professionals

Through studying the qualification, individuals will undertake in-depth, best practice learning from which they will understand the six key areas of work design and how to identify warning signs and implement strategic interventions.

What you will learn

The NEBOSH HSE Certificate in Managing Stress at Work aims to help you understand the key principles of work-related stress and its relationship to mental ill health issues. Beyond this you will learn:

How to recognise the causes and effects of workplace stress
The responsibilities of employers and individual roles in managing workplace stress
How to apply the HSE's Management Standards approach to assess stress risks in the workplace
How to develop suitable interventions to address stressors, reduce negative impacts, and manage the effects of stress in the workplace
Ways to continually improve your organisation and create a great place to work
Further details can be found in the syllabus guide which can be downloaded in the Resources Section below.

Entry requirements

It is important that learners have a suitable standard of English language in order to understand and articulate the concepts contained in the syllabus.

NEBOSH recommends that learners undertaking this qualification should reach a minimum standard of English equivalent to an International English Language Testing System (IELTS) score of 6.0 or higher in IELTS tests.

	<p>Adresse :Cité 11Décembre 1960 N° 120 2ème Etage Baba Hassen- ALGER N RC : 16-01 - 20A1551304 NIF : 19517310150012900000 Telephone : 0782 83 79 88 Email: kitalgeria@kit-egy.com Site web : www.kit-egy.com</p>	<p>BATEN RABAH Consultation, Training, Contracting & Evaluation Training Pogramme</p>

8. Health and Safety at Work Award

The NEBOSH Health and Safety at Work Award provides a best practice introduction to workplace health, safety, and risk that is relevant to all industry sectors. This qualification is now available in Arabic, in addition to English.

The course content is delivered in an understandable and accessible way and will help you to:

- gain an awareness of common workplace hazards so you can help to implement or maintain your organisation's health and safety management system
- gain practical skills that can help keep yourself and others safe
- apply the principles of risk assessment
- have a positive impact on health and safety in your workplace.

Who is it for?

Anyone who needs to understand the principles of health and safety as part of their job will benefit from taking this qualification including:

- Team leaders and supervisors,
- HR professionals,
- Facilities managers.

It provides a valuable overview, which can act as a sound basis for further study.

Employers

The NEBOSH Health and Safety at Work Award can help you to:

- Reduce incident and injury rates, and the associated lost time and absence
- Foster greater health and safety awareness amongst employees
- Improve employee engagement and enhance safety culture
- Secure higher levels of compliance with organisational safety measures
- Protect the business from the reputational damage caused by health and safety failures.

Course Details

The NEBOSH Health and Safety at Work Award looks at everyday solutions for general workplace health and safety issues.

Through your studies, you will gain knowledge and practical health and safety skills.

	<p> Adresse : Cité 11 Décembre 1960 N° 120 2ème Etage Baba Hassen- ALGER N RC : 16-01 - 20A1551304 NIF : 19517310150012900000 Telephone : 0782 83 79 88 Email: kitalgeria@kit-egy.com Site web : www.kit-egy.com </p>	<p> BATEN RABAH Consultation, Training, Contracting & Evaluation Training Pogramme </p>
---	---	--

This will enable you to:

understand why health and safety needs to be managed, ensuring effective processes are in place

inspect the workplace, recognising common hazards, evaluating risk, recommending controls measures and assigning actions

understand why incidents happen and how to investigate them.

NEBOSH Learning Partners offer a variety of flexible course formats, including in-company options, so training can be arranged according to business need.

Length of course

This qualification has a minimum of 18 taught hours, two hours of self-study and a recommendation of three hours for the assessment.

Entry Requirements

There are no entry requirements for this qualification.

This qualification is available to study in English or Arabic. For learners studying in English, it is important they have a suitable standard of English language so they can understand and articulate the concepts contained in the syllabus. NEBOSH recommends that learners undertaking this qualification should reach a minimum standard of English equivalent to an International English Language Testing System (IELTS) score of 5.0 or higher in IELTS tests.

	<p>Adresse : Cité 11 Décembre 1960 N° 120 2ème Etage Baba Hassen- ALGER N RC : 16-01 - 20A1551304 NIF : 19517310150012900000 Telephone : 0782 83 79 88 Email: kitalgeria@kit-egy.com Site web : www.kit-egy.com</p>	<p>BATEN RABAH Consultation, Training, Contracting & Evaluation Training Pogramme</p>

9. NEBOSH HSE Certificate in Manual Handling Risk Assessment

NEBOSH and Great Britain's health and safety regulator, the Health and Safety Executive (HSE), have collaborated to develop a new qualification aimed at preventing one of the main causes of musculoskeletal disorders; manual handling.

The NEBOSH HSE Certificate in Manual Handling Risk Assessment is a one-day qualification, based on HSE's best practice guidance and tools. The content will help you to identify and assess manual handling risk, and more importantly, prioritise controls to protect workers.

Who is it for?

The NEBOSH HSE Certificate in Manual Handling Risk Assessment is for anyone who gets involved with assessing and addressing manual handling risks. It is common for the following roles to have these responsibilities:

Health and safety professionals
Workplace champions
Employee representatives
Occupational health practitioners.

Course details

The qualification will help you to:

Explain the importance of reducing risks associated with manual handling activities
Understand responsibilities in relation to manual handling
Explain what manual handling risks are and how they may result in injury
Demonstrate and practice appropriate manual handling risk assessment technique
Apply wider elements of risk management for manual handling.
Using this qualification to build in-house expertise will help organisations:

Protect team members from one of the main causes of musculoskeletal disorders
Have confidence that the approach adopted to manual handling risk assessment reflects best practice and utilises HSE manual handling tools and templates.
The qualification content is outlined in more detail in the syllabus guide, that is available to download from the Resources section below.

Length of Course

This one-day qualification requires a minimum of six hours study with a recommendation of one hour for the assessment. This means it can be completed in just one day.
